INTRODUCTION

Good management of natural resources and environment is essential to attain and sustain economic growth and development. It is imperative for sustainable livelihoods, to enhance and sustain the productivity of natural resources, arrest environmental degradation, and protect the integrity of eco-systems. **SEC Ltd** over past decade has been engaged in these, wholeheartedly.

Sustaining environmental integrity through preservative ingenuity

About Us...

SAHARA ENVIRONMENTAL CONSULTANCY Ltd, ('SEC') has established itself as a leading authority in wide and far reaching consultations (and projects?) on environmental quality assessments (EIA, EAR, LCA), waste management, recycling solutions and project surveying. We often partner with defining **licensed** professionals for provision of other environment conservation and enhancement solutions and are currently serving customers on a national and international basis , working with a variety of customers both in the private and public sectors including corporate concerns.

Our wealth of experience, environment-based technology savvy and vast knowledge aptly empowers us to make available a plethora of innovative designs, implementation and monitoring solutions for tackling and controlling a wide range of environment challenges ranging from Environmental consultancy, land reclamations, afforestation programs, conservation controls/enhancements, waste recycling, capacity building amongst others.

Though based in Northern Nigeria our operations extend through the length and breadth of the nation across a diversity of sectors because the main thrust of our organization is:

Reinforcing conservativity, environmental enhancement and integrity through consistency in quality delivery

VISION

*A clean, healthy and well protected environment supporting a sustainable society and economy.

*Making positive NATURE sustaining impacts

* Towards a sustainable environment

MISSION STATEMENT

- ✓ To create a better society through partnerships to protect, improve and sustain the environment as a valuable asset for EARTH dwellers.
- ✓ To collaborate and partner with others to promote and implement actions to ensure a healthy and safer environment.
- ✓ We are dedicated to environmental improvements that foster a sustainable future and leads to social and economic improvements in the community we do business.

"We abuse NATURE because we view it as a commodity belonging to us. When we see NATURE as a community to which we belong, we may begin to use it with LOVE & RESPECT"

- Aldo Leopold -

CORE/OPERATIONAL VALUES

SEC focuses on providing an environment for both our employees and customers that is driven and supported by the following core values.

Innovation: We are dedicated to exploring innovative, inspirational and creative solutions to our goals.

Responsive: We are streamlined and focused enabling us to respond quickly to needs and opportunities

- **Sustainability:** We carefully consider the best approach that can be maintained over time without damaging the environment, balancing near-term interests with the protection of future generations. We recognize the interdependence of environmental quality, economic growth and social justice
- **Conservation:** We plan for the careful use of natural resources in order to prevent depletion, prevent pollution and to do no harm to the environment. We strive to encourage reduction of energy consumption, waste generation, our dependence on fossil fuels and production of greenhouse gases
- **Restoration:** We work to facilitate clean-up/restoration of environmentally impacted lands that impeded sustainable environment. We actively seek avenues for promoting and driving restoration/recovery.
- **Compliance:** We strive to meet or exceed standards and regulations for compliance with state, federal and international environmental regulations.
- **Leadership:** We always act as community models and facilitators in environmental stewardship. We always strive to "do the right thing" in environmental matters.
- **Continuous Improvement:** We, on regular basis, review environmental programs, identify opportunities for improvement and push to implement changes where necessary.
- Excellence
- Transformation
- Integrity and
- Performance

What We Do

SEC Ltd specializes in Environmental Management services.

As one of the nation's foremost environmental consultants, we are renown for providing an extensive array of environment management solutions including;

- Environmental quality assessments include: EIA, Environmental Audit, Sensitivity Assessment and Life Cycle Assessment.
- Permitting and Regulatory Compliance Assistance: Facilitating NESREA permits (air quality, solid, hazardous & toxic substances) for clients.
- Environmental survey services include: Wetlands location and mapping, stream location for restoration design, riparian buffer determination, FEMA floodplain determination.
- Facility Management: including Soft/Hard Land scaping, Sanitation and Waste management
- Erosion control services: water shed management and desertification control and shelterbelts.
- ISO 14001 Conformance Program Development
- Environmental Education and Training (embodies workshops, seminars, symposiums, etc)

We routinely prepare a range of management plans including:

Erosion and Sediment Control Plans (ESCP), Construction Environmental Management Plans (CEMP), Flood Risk Management Plans (FRMP), Stormwater Management Plans (SMP) and Water Quality Management Plans (WQMP).

SEC Ltd. has extensive experience in the design, sample collection, data assessment and reporting associated with compliance groundwater and surface water monitoring programs undertaken both during and post-construction phases, to ensure management strategies are being implemented and performed as recommended. SEC Ltd. has the experience and expertise to perform everything from Environmental consultancy, land reclamations, afforestation programs, capacity building among others. Our expertise positions us to handle projects of any size.

Whatever the situation, whatever the specific need, SEC Ltd. will provide any and all of the services listed. Each job is customized to suit the client's particular needs and/or circumstances
